SPECIFICATIONS

The 8P0129LF/8P0131LF 3-way T port and 8P0130LF/8P0132LF L port lead-free low torque brass ball valves using the light weight VB series technopolymer electric actuator offer the best in durability for commercial and light industrial applications. The 8P0129LF/8P0131LF lead-free series 3-way T port with its four-seated design can allow straight through flow, diversion, and complete shut-off capability. The 8P0130LF/8P0132LF L port is also four seated, allowing one to utilize any port as an entry. The valve is also approved under the NSF standard 61/372 for potable water use.

The Valbia pneumatic actuator comes with a hard-anodized aluminum body, and powder coated end caps. In addition, all Valbia pneumatic actuators are standardly furnished with elevated temperature seals to 302F. The patented side loaded limit stops never enter the piston chamber eliminating extra possible leak paths.
